**"CHOOSE A JOB YOU LOVE, AND YOU WILL NEVER HAVE TO WORK A
DAY IN YOUR LIFE" - CONFUCIUS**

PROFILE SUMMARY

I Aspire to join an esteemed organization that values and recognizes my talents, allowing me to utilize my skills and knowledge to forge a fulfilling career. As an innovative student in Computer Science and Business Systems, I possess a keen interest and hands-on experience in developing a Software project

PROJECTS

Economic Revitalization [Grove Good]

- Drove profit growth and job creation through innovative web development. Branded innovator, enhancing online presence. Implemented cost-saving payment system for financial stability.
- Championed a green revolution in e-commerce, leading a sustainable platform with unwavering commitment to quality and eco-friendly practices. Redefining online shopping with a conscience.

Technology used: **MongoDb Express React Node Js**

Dak Ghar Niryat Kendra [Trade Harbour]

- SME Synergy Hubs unite businesses in vibrant online communities, fostering collaboration through dynamic training, awareness campaigns, and targeted networking, The E-Commerce Innovation revolutionizes trade with a user-friendly platform, connecting buyers and sellers seamlessly.
- Embracing sustainability, Waste Transformation system turns unsellable goods into high-quality fertilizer. Experience tailored solutions for traders, international buyers, and DNK sellers, emphasizing product listings, loan access, customization, trust-building, and streamlined exports.

Technology used: **MongoDb Express React Node Js**

Event Booking Platform & Food Recipe App

- Led MERN stack development of an event booking platform, streamlining planning and deepening proficiency in MongoDB, Express, React, and Node. Significantly enhanced technical skills.
 - Innovated a creative food recipe app, expanding tech expertise from basics to advanced with React Native. Elevated my tech enthusiasm and added a dynamic edge to my skill set
-

Area of Interest

- MERN Stack Developmment
- Java Spring & Spring Boot
- Backend Development

Certifications

- Languages : Master in C ,Master in Java
 - Web Development : Certificate in Mern
 - Dynamic : Master in Data Structures
-

Skills

- Languages : C,Java,Python
- Front End : Html,Css,Js,React Js,Tailwind
- Back End : Node Js, Java ,Docker
- DataBase :MongoDb,MySql
- FrameWork : Express Js,Spring & SpringBoot
- Tools: vs code,github,postman,Intellij

Achievements

- Technical Symposium Crypt era 2023 [Reversed Coding]
 - Runner up in pogram Contest 2023 in SECE
 - Finalist at Psg-Hackfest in 1000+ teams
 - Sports Excellence Award In SECE 2022 (Silambam)
 - Sports - Gold in National Level Silambam Championship
 - Popularity Award in South Korea Under UNESCO
-

Freelancing Projects

Engaged in diverse freelancing projects, delving into full-stack development from inception to deployment. Gained diverse skills, turning challenges into learning opportunities. Eager to grow as a passionate and adept developer.

Sri Murugan Builders

- Spearheaded the development of an impactful project for SriMurugan Builders, seamlessly integrating an interactive slider with dynamic maps, enhancing the user experience and locations.
- Implemented a sophisticated emailer system and a meticulously managed gallery section managed through a backend database, elevating online presence and advertising effectiveness in the construction industry through optimal speed and responsiveness across various resolutions

Technology used: **React js , Java Spring Boot , MongoDB** [Project Repo Link](#) & [Live Project Link](#)

Local Shopping Website

- Engineered an intuitive local shopping website for seamless product exploration, offering customers a user-friendly interface to browse and discover a diverse range of available products.
- Implemented an efficient ordering system, enabling customers to effortlessly place orders on the website. Confirmation emails keep both shop admin and customers informed, streamlining the shopping experience and optimizing operations for enhanced client satisfaction

Technology used: **React js, Node js**

Personal Portfolio

- Created a visually captivating personal portfolio with an interactive slider, and add up on features like integrated a YouTube section for engaging multimedia content and some addition features.
- Designed a seamless gallery page, providing a visually compelling showcase of diverse works and skills, enhancing the overall user experience for a striking online presence by the portfolio

Technology used: **React js, Express js, Node js, MongoDB**

CODING PLATFORMS

LeetCode Rating of(+1450)
Leetcode Problems (+270)
Codechef Rating (+1257)
Skillrack Ranking of(+1262)
Skillrack Problems (+2142)

INTERNSHIP

Completed an intensive MERN stack development internship, gaining hands-on experience in building web applications. Collaborated on realworld projects, MongoDB, Express.js, React, and Node.js, and demonstrated problem-solving skills. Contributed to the development team's success, enhancing my proficiency in full-stack development.

Education

B.TECH COMPUTER SCIENCE AND BUSINESS SYSTEMS

Sri Eshwar College Of Engineering , Coimbatore

2021-2025

CGPA-8.01

SSLC & HSC

JSR Higher Secondary School, Madathukulam

2019-2021

percentage 85.5%

Portfolio QR

Passionate and results-driven software student eager to contribute to an esteemed organization that values talent. Dedicated, respectful, and committed to fostering growth while utilizing my skills for the company's success.
